SO WHAT SETS PEAKSTONE GLOBAL APART IN THE MARKETPLACE?

In the governance advisory marketplace, the competitors of Peakstone Global fall into two main categories.

First, some large, older firms such as accounting firms, law firms and executive search firms have a non-core division that offers governance and board advisory services. Compared to these firms, our Specialist Advisors are focused on governance. Our practice is totally specialised in governance, not as an add on to a large firm. Plus our Advisors have substantive experience as non-executive directors or Chairs in the ASX, private, government and not-for-profit sectors.

Secondly, there is a myriad of sole operator or small firm practices. Compared to this category, Peakstone Global is a truly national firm with international perspectives. Our Founding Directors and Specialist Advisors have an unrivalled breadth of experiential diversity, from directors, executives, organisational psychologists, accountants and lawyers. You get one advisory firm with many minds!

Additionally, we provide a range of digital services which are world class, benchmarked and university accredited to provide meaningful quantitative insights.
